

# THE OMINECA HERALD

Vol. 22 NEW HAZELTON, B. C. WEDNESDAY, NOVEMBER 13, 1929 No. 19

## Local Mining Progress is Discussed by a Writer in The Vancouver Province

By Reece H. Haugue in Vancouver Province, November 1st.

In common with mining areas throughout British Columbia generally the Omineca mining division has been the scene of considerable activity this summer. The advent of the big companies into the district has given fresh heart to prospectors and development work is being carried out on a number of properties extending over a large range of country.

Good sound development work is being conducted on several properties in the vicinity of Usk on the western boundary of the district, including the Valhalla and Kleanza groups, which are under operation by Columbia Gold Mines Ltd., and the Lucky Jim property on Kleanza Creek, which is under option to the Consolidated Mining and Smelting Co. Ltd.

At intervals between Usk and Hazelton, on the Canadian National Railways, work is being done on various promising showings, and adjacent to Hazelton itself the mill was in operation on the Silver Cup Mining Co. Ltd. formerly Duke Mining Company, and some difficulty was experienced in getting the milling power plant into operation and also working out the best method of treating the ore by flotation. Gradually, however, these difficulties have been overcome and it is generally hoped that the mine will experience a successful production period.

Mr. Stephen H. Hoskins, who has been gold commissioner of the Omineca Division since 1912, prior to which he spent a number of years in the Kootenays, told me that indications pointed to British Columbia being on the eve of just such another mining boom as occurred in 1897. He said that in the Omineca section there was more activity than any other time since he had been stationed in the district. Prospectors had come into the area shortly after the construction of the telegraph line in 1865. Mr. Hoskins said, and there had been spasmodic mining activity in the district ever since about 1888. There was quite a number of lode and placer properties in the old Manson Creek placer area which had been practically abandoned since 1898 and which was at present a wilderness, but which would, he considered, come back into its own as soon as there were transportation facilities, and would prove just as it was in its prime days.

Placer properties had been under investigation in the Slate Creek area for three years but at present there was only an apology for a road and supplies were being taken in under disadvantageous conditions by wagons and sleighs. The Provincial Government was at present building a road in to Manson Creek from Fort St. James which would greatly facilitate the taking in of machinery and supplies and be of inestimable value to the district. Water power has just been staged in the locality.

Mr. Hoskins mentioned that a new mining district was being opened up adjacent to the Klawich river near Tahla Lake in the central portion of the Omineca division. There were only a few prospectors in the district at present but good samples had been secured and the locality was under investigation.

In the latter part of August Mr. Hoskins mentioned the Bulkley Valley mining district, where a promising discovery had been made and considerable staking was taking place.

The Consolidated were working on a property situated at Sweeney Mountain, near Tahla Lake, which had been originally staked in 1913, the gold commissioner mentioned, and said that he considered this one of the most hopeful undertakings in the country, but at the present time it was necessary to transport all supplies and equipment from Burns Lake.

In expressing his confidence in the large district over which he had control, Mr. Hoskins stressed the fact that as yet the mineral resources had scarcely been scratched, and said that he felt sure that it would ultimately prove to be an important mining producing area.

The entry of Mr. Timmins, of Hollinger Mine fame, into the Bulkley Valley mining district has been a source of considerable satisfaction to the residents of the area, and a great future is predicted for the Owen Lake property which Mr. Timmins took over last June from Frank S. Taylor, who had previously been carrying on development.

The Owen Lake property is situated about twenty-five miles south of Houston and when I was in the district the new road, which is being constructed partially by the Government and partially by the mining company, was well under way.

While it was a number of years since the claims recently acclaimed by Mr. Timmins were first staked, they received little attention for a long time owing to the lack of transportation facilities in the district.

A good deal of work was carried on by J. P. Cole of Houston and associates, who were the original locators and in 1923 Federal Mining Company of Wallace, Idaho, optioned some of the chief claims in the district and did a little work, but abandoned their option in the following year and left the country.

The owners of the claims found it impossible to interest capital primarily owing to the fact that there was no road but an indifferent trail into Owen Lake, and requests for improvements in this direction were disregarded.

In 1928 Frank H. Taylor, the original discoverer of the Topley-Richfield property, secured options from Mr. Cole on the Diamond Belle group and from Dr. H. C. Winch, M. L. A., on the Silver Queen group, which comprise the principal claims in the Timmins holdings, and added other claims by option, purchase and location until he had nearly 100 in all.

After having spent \$25,000 in securing options and doing preliminary development and examination work, Mr. Taylor organized the Owen Lake Mining and Development Co. Ltd. in October 1928, and put in the first \$75,000 capital himself for the purpose of purchasing and transporting to the mine a sawmill, two complete plants for mining development and necessary equipment and supplies. A crew of 60 men were engaged on the property and a shaft sunk in one of the main veins of the Diamond Belle group. At a depth of 80 feet drift tunnels were extended to the east and west, the depth of the shaft and length of the tunnels being in accordance with the plan of development of good milling dices.

### SECOND TEACHER NEEDED

New Hazelton School has grown beyond present accommodations.

When school inspector Fraser was here last week he notified the school board that a second teacher would be necessary here immediately, and that means by the first of December. The trustees are now scouring the town for a building in which to open the new room. The present school, only built a very few years ago, is much too small to accommodate the pupils and the classes are too numerous for any one teacher.

### MINISTER OF FINANCE DEAD

Hon. J. R. Robb, minister of finance in the Dominion Government, passed away on Tuesday. He was operated on some days previously and it was thought that he was on the mend. His passing is a distinct loss to Canada.

### NEW LODGE —LAKELSE LAKE

Much Improved Accommodation for Tourists and Sportsmen.

Announcement has been made that the new Lodge which has been constructed at the shore of Lakelse Lake by J. Bruce Johnstone, will remain open well into the winter season to take care of hunting parties, bird shooting being particularly good in that vicinity while there also lots of bears, grizzly, black and brown, and mountain goat. There is an excellent guide at the lodge to look after the interests of such parties. The following information will be of interest.

The new buildings have now been completed and are very comfortable. The main lodge is a building of about fifty feet in length, containing a large sitting room with a beautiful open fire place (similar to Jasper Park lodge) the walls and ceiling of the lodge is finished in cottonwood veneer; the dining room, which is also a good size, is situated immediately behind the living room and divided from it by an arch. There are four large bedrooms on the ground floor opening off the sitting room, and ten additional bedrooms upstairs in this building. Three cottages adjacent to the lodge have been completed, so that about forty people can be accommodated comfortably at this resort.

There is a good beach immediately in front of the lodge. The new location is about a mile and a half from the old one, and it is the intention to pipe the water during the winter from the hot springs down to the new location, and install baths in a separate building. It is expected that a swimming pool will also be built in connection with these hot springs.

For next summer the lodge will open on May 15.

Later a main tunnel was started from the shore of Owen Lake to cross our sixteen veins which were running roughly parallel in a length of 70,000 feet.

Work on this tunnel has been continued by the organized company and several blind veins the existence of which was hitherto unknown, have been encountered, which conveys the impression that the property may prove to be one of outstanding merit.

In the event of the ore bodies justifying it, it is the hope of the mining people of the district that Mr. Timmins will construct a smelter on the property in which event a number of smaller prospects carrying high values in scattered veins will be developed.

### OPPOSITION LEADER HERE

Hon. T. D. Pattullo, leader of the Opposition at Victoria, was in Hazelton on Thursday evening last when he met a number of the faithful in the school house. His trip through the north was for organization purposes and he stopped at numerous places on the railway and then met Premier McKenzie King in Prince Rupert Saturday night.

### BRIDGE AND DANCE A SUCCESS

The bridge and dance held under the auspices of the Hazelton Social Club in the new Hudson's Bay store last Friday night was a decided success. A large number were present and everyone seemed to have a good time. The winners of the bridge prizes were Mrs. Myros and Miss Rock and Jack Hilditch and Dr. Leonard Winch.

### PRESIDENT HOOVER WAS HEARD

On Monday night last the local radio people who tuned in on K. O. M. O. of Seattle, got a splendid reception of the speech of President Hoover and others in Washington, D. C., at the banquet in celebration of the Armistice. The affair was under the auspices of the American Legion. The messages of the president and of the president of the Legion were preparedness for peace. The reception over the radio was good from 5.30 onward.

### ARMISTICE SERVICE HELD

A very successful union service was held in the Assembly Hall in Hazelton last Sunday afternoon in commemoration of Armistice Day (Monday). There was a very fair attendance and short addresses were given by Rev. L. R. L. Bannister of the Anglican church and Rev. T. H. Wright of the United. An offering was taken and \$10.00 was voted to the Canadian Legion at Smithers.

### OLD FORT PRINCE OF WALES

At Churchill may need a Guard to Prevent visitors from destroying it.

That it may prove necessary to place a guard over the ruins of the two-century-old Fort Prince of Wales at Churchill was the statement made here by Hon. Charles Dunning, Canadian minister of Railways on his return from a trip of inspection over the lines of the recently constructed Hudson Bay Railway to Canada's Arctic port.

Two hundred years ago, occupants of this centre of the Hudson Bay Company's activities carved their names on the rock walls. Now with the steady increase of visitors to Fort Churchill the walls of the old Fort are being marked up by new names despite the desires of the department of the interior to preserve the ruins as the pioneers of the north left them.

"I imagine the department will put guards over the fort," Mr. Dunning said. It is perhaps the most interesting relic left to us of early Canadian history—a history that predated that of any city on the prairies of the middle United States. Churchill was a small town and the capital of the west, and the centre of the continent from the Arctic Sea to Oregon before there was any Seattle or Fort Carry of Regina. The fort stands as a monument to the men who built it as a link with the 18th century in this country and must be preserved.

Mr. Dunning and Mrs. Gird of Regina, Sask., were in Hazelton Saturday.

### TERRACE TRADE BOARD

Held regular meeting and dealt with Many Matters of Local Interest.

Terrace Board of Trade met on Tuesday night in the Municipal Hall, Mr. Smidol presiding. In the absence from illness of the President, Mr. E. T. Kenney. It was agreed to continue the annual subscription to the Canadian Chamber of Commerce. A letter from Supt. Tobey of the C. N. R. indicated that the provision of a passenger car on freight trains would again be considered when the winter schedule comes into force. As the result of correspondence with the shipping companies and an interview with the representative of the Canadian National Express Co., the secretary stated that an effort would be made to facilitate the transportation of Terrace produce to Port Simpson. Alice Ann Ayer and Stewart on more easy terms than heretofore.

A letter from the Supt. of Lands, Victoria, recommended that the proposal to have the Govt. donate land for the construction of a 60ft. right of way at the lake front at Lakelse be referred to the Public Works Dept. and this was accordingly done. Mr. T. Turner promising to take the matter up with that Department.

Mr. Barnett raised the question of the disposal of nightsoil cans in the municipality and after discussion the matter was referred to the local commissioners.

An suggestion of Mr. A. A. McDonald it was decided to support a request for the construction of a tractor trail for a distance of twelve miles up Chindemash Creek, and a proposal of Capt. Willman that a pack horse trail as far as Summit Lake was also approved. It was further agreed to support a proposal of Capt. Willman that a pack horse trail be provided on the north side of the Skeena between Terrace and Usk.

It was decided to call a special meeting on the 19th to deal with suggestions for Public Works improvements. After hearing complaints re the frequent absence of the local constable on duty in Prince Rupert and other places it was decided on the motion of T. Turner to ask that the town be not left without police control in future.

On the motion of Mr. McDonald it was agreed to make application for the opening up of telephone communication between Terrace and Usk at night and a suggestion that the Indian reserve near Michael's place should be set apart as a public park was also approved and the Secretary asked to get into touch with the Ministry of Lands on the question.

### BASKETBALL IS ORGANIZED

A public meeting was held in G. W. V. hall on Thursday evening to organize the Basketball Association. A record crowd was in attendance. The following officers were elected: President—A. Holmwood. Vice President—Miss Reid. Sec. Treas.—R. Beacham.

The girls' teams are to practice on Tuesday with Rev. Allan as coach for senior team and Mona Grogg the Junior team. The boys' teams will meet on Thursday evenings. The coach and referee to be appointed. The fee for the year being \$1.00 each and exhibition games three times a month. A good year's sport is anticipated.

Rev. J. W. Robinson and Mrs. Robinson were in Hazelton last week. Rev. Robinson and Mr. Robinson were in Hazelton last week.

## PEACE RIVER OUTLET

It seems that Prince Rupert has been really aroused over the Peace River outlet and that an organization, whose special duty is to get the road into that port, has been perfected and set to work. College yells, dinners and lots of speeches have been heard and the meals eaten, and there will be more of them as time goes on. That is the surface work. Underneath there is other work being carried on. All the interior towns, villages and communities should be solidly behind Prince Rupert. Some of the interior organizations have already passed resolutions to that effect. The others should do so at once. This whole interior country is bound to benefit by the Peace River traffic coming this way rather than via the south. It might help a lot if Prince Rupert sent a delegate to the various organizations in the interior and help organized these districts along the same lines that have been adopted in Rupert.

## HOW ABOUT HALLOWEEN?

This is supposed to be an enlightened age. We have been lead to believe that the old conception of things was all wrong. It is true that in many ways life and property have been made more secure. It is not right anymore to steal your neighbors sheep or cattle. It is not right any more to tar and feather or publicly hang a person. The free use of fire arms is forbidden. Yet the most foolish and barbarous custom of all has been retained by some, and in a mild way recognized by the police. We refer to Halloween. At best Halloween was never more than a ghost story built up under superstition. Many other forms of fun are no longer permissible, then why allow a few brainless hoodlums take the law in hand and smash, deface and otherwise destroy private or public property? The so-called innocent little amusements only lead to more dangerous practices. It is time all such nonsense was cut out. Private property, churches and public property are just as sacred on Halloween night as any other time the security of the home should be just as secure that night as any other night. If the authorities are determined to allow hoodlums out on Halloween night, or even sanction what they call "innocent fun" among the children (hammering on doors or soaping windows or such like) we take it that the authorities will take no objections to the property owners protecting themselves with shot guns. Is it not time there was a change? Is this an enlightened age?

## NORTH FROM NEW HAZELTON

This week in Victoria one of the most important meetings in the history of this province will be held and the Premier of Canada and the Premier of British Columbia will meet with representatives from the United States to discuss the building of a road from the Pacific Coast to connect the United States with Alaska and to connect Canada with its far north, the Yukon territories. This road is already built from Vancouver to New Hazelton and many miles of road are already built in Alaska. The present plan is to continue the road from New Hazelton through Northern British Columbia into the Yukon. In this province it will open up vast areas of mineral and timber wealth, agricultural lands and coal areas. It will bring the many people of the interior into contact with the coast.

# Advertised Goods Are Lower

ADVERTISING turns over stocks rapidly, and therefore multiplies profits. This means that prices in a shop which advertises can be short rather than long.

Of this you may be sure: Prices in a shop which advertises are not MORE than in a shop which does not advertise. The chances are that they are oftentimes lower.

This also is generally true: You will find better goods, better values and better service in those shops which turn over their stocks rapidly. This means, as a result, that the things which advertise.

## A NOTE TO MERCHANTS

Advertising costs you nothing—it is paid for by the profits of increased sales.

Advertising is easy—it is simply saying in writing what you say to your customers in your shop. Turn over stocks quickly, if you would make more money.

Read the Advs. Then Shop

## IN PROBATE

In the Supreme Court of British Columbia.

In the matter of the "Administration Act", and in the matter of the Estate of Drysdale Ogilvie, deceased.

TAKE NOTICE that by an order of His Honour, F. McB. Young, dated the 20th day of October, 1923, I was appointed Administrator of the estate of Drysdale Ogilvie, deceased, and all parties having claims against the said estate are hereby required to furnish same, properly verified to me on or before the 18th of November, A. D. 1923, and all parties indebted to the estate are required to pay the amount of their indebtedness to me forthwith.

Stephen H. Hoskins,  
Official Administrator  
of Smithers, B. C.

Dated at Smithers, B. C.,  
this 31st day of October, 1923. 2t

## CANADIAN SALMON RICH IN PROTEINS NEEDED IN DIET

Investigations made by scientists have established that Canadian salmon are higher in protein content than cereals or vegetables. The importance of this fact, from the dietary standpoint, is that proteins are not only sources of energy but they are tissue builders as well. The Pacific Coast salmon that is richest in protein content is the Pink, and not, as may be popularly thought, the more famous Sockeye whose favored place in public opinion is largely due to its more attractive color. The Atlantic salmon ranks next to the Pacific Coast Pink in percentage of protein.

## ARMISTICE SERVICE HELD

The Armistice Service held in Canadian Legion Hall on Monday morning at 10:45 A. M. was well attended. Rev. A. W. Robinson conducted the service. Rev. Allan giving an appropriate address. The bugle call was sounded by Scout Master Kirkaldy, the boy scouts attending in a body. Sergeant Affre wailed "We are the living". St. Matthews Choir was in attendance and gave us a special number "God of our Fathers". The service was concluded by a quartette. Tenure to night by Mrs. Allan and Miss Greta and Rev. Allan and Robinson. Miss Bell was the accompanist.

## NOTICE

Mining Company officials are asked to note the provisions of Section 16, "Mineral Survey and Development Act," which are quoted herewith, and govern themselves accordingly.

(1) Where a corporation, other than a private company under the "Companies Act," acquires an interest in, or title to, or engages in work on any mining property situate in a mineral survey district, it shall forthwith notify the Resident Engineer of that district, and the Provincial Mineralogist, and file with them full particulars thereof, and shall also file with them, as soon as it is issued, a copy of every prospectus or statement in lieu of prospectus which is required by the "Companies Act" to be filed with the registrar of Companies.

(2) Where a corporation, other than a private company under the "Companies Act," issues, publishes or distributes, or causes to be issued, published or distributed, any pamphlet, bulletin, circular, advertisement, or publication relating to any mining property situate in the Province in which the corporation has any interest or on which the corporation is engaged in work, the corporation shall forthwith file a copy of the pamphlet, bulletin, circular, advertisement, or publication in the office of the Resident Engineer of the mineral survey district in which the mining property is situate, and shall also forthwith file three copies of the same in the office of the Department of Mines at Victoria.

(3) If a corporation makes default in complying with any requirement of this section, it shall be liable, on summary conviction to a fine not exceeding twenty-five dollars for every day during which the default continues, and every director and every manager of the corporation who knowingly and wilfully authorizes or permits the default shall be liable to the like penalty.

For information regarding British Columbia Mines apply to the Department of Mines, Victoria, B. C. Special Bulletins "Amalgam Reports," etc. furnished free of charge on application.

Approximately 2,000,000 acres in new agricultural land have been "broken" in the past three years in those parts of western Canada served by the Canadian National Railway, according to Dr. J. B. Clark, the Canadian Director of Colonization.

## North From New Hazelton

Continued from Page 2

Canadian tourists through British Columbia from south to north. It will be a new and a wonderful source of wealth by which every citizen and settler in the province will benefit, directly or indirectly. This particular town and district will especially benefit. More power to the north road.

If this is not Economic Suicide, What Is It?

With one-seventh of the world's known coal under her soil, with huge iron ore deposits and with unparalleled resources in hydro-electric energy, Canada in the year ended in August 31, 1923, imported from the United States iron and its products to the value of \$323,469,000.

Of this vast sum only \$3,899,575 represented iron ore.

All of the balance was partly or fully manufactured.

The total of all metals imported from the United States in that period reached \$394,891,252, or practically the equivalent in amount of 75 per cent of all United States purchases from Canada in the same period.

The Dominion Bureau of Statistics issued a summary of these imports. Half in value according to the Department of Labor, may fairly be credited to the labor involved in their production and manufacture. Roughly that would give employment to 200,000 Canadians at \$1,000 a year, the means of subsistence for that number of families.

In all the metals in a single year there was an increase of more than \$71,000,000 in imports from the United States.

In manufactured electrical goods there was an increase of imports more than \$10,000,000. Rolling mills products imported jumped nearly \$15,000,000 and vehicles imported were \$13,000,000 more than in the preceding twelve months. Farm implements to the value of \$37,333,618 were imported. Electrical goods imports were valued at \$23,274,000, engines and boilers at \$17,703,000.

The whole list speaks for itself. Of the entire \$394,891,000 worth of metal imports there is scarcely an item which could not have been produced or manufactured in Canada.

Instead, the payroll of probably \$200,000,000 represented by this list went to foreign workmen in a foreign country which will brook no competition Canada or Canadians.

How long, Oh Canada! How Long?

FRED V. SEIBERT

Announcement has been made by W. J. Black, Director of Colonization, Agriculture and Natural Resources for the Canadian National Railways, of the appointment of Fred V. Seibert, formerly of the Federal Mines Branch at Ottawa and one of the best informed authorities on the natural resources of Canada, to the position of Surveyor of Natural Resources for the Canadian National Railways, with jurisdiction over the Provinces of Manitoba and Saskatchewan.

## Health Service

Questions concerning health addressed to the Canadian Medical Association, 194 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

## SIXTH YEAR MOLAR

There is one tooth which is most important in securing a properly developed jaw with regular teeth. This tooth is the first permanent molar, and it is commonly called the sixth year molar. Its popular name is apt to be misleading, however, because the tooth may appear earlier or later than the sixth year. It comes in just behind the temporary or baby teeth. Indeed it is often mistaken for one of the baby teeth and, as such, it is neglected, the parent thinking that it will be replaced by a permanent tooth later on.

This important tooth can be easily recognized. In the temporary set there are ten teeth above and ten below, or in other words five on each side above and below. If there are more than five, then the sixth tooth which appears is this most important first permanent molar, which must be carefully guarded and preserved because of its being the keystone to the dental arch.

Loss of the first permanent molar means that the jaw will not be properly formed, the other teeth will not be in proper position, and, as a result, there will not be the perfect condition that there should be.

The importance of the teeth as factors in health is generally known. A clean mouth means healthy teeth and gums. Dental disease is responsible for a great deal of illness and suffering. It is essential that parents and those responsible for children realize that, in order to have sound teeth in adult life, and early start must be made. We refer here to this first permanent molar which often appears in the fifth year and which must be preserved if the child is to have sound healthy teeth. This simply means that dental care cannot be postponed, but that it must begin in early life.

Proper diet, cleanliness, regular visits to the dentist are the basis of dental health. If these are begun early and persisted in, satisfactory results will be achieved.

## News from Terrace

Geo. Abderson while driving Holden's car last Thursday evening, with six school children accompanying him, went over the bank on the Lanfear Hill. The car turned completely over and the top lodged in a tree and thus prevented it rolling all the way down. The passengers all escaped any serious injury.

Jas. McLeod of Port Hope, Ont., is holidaying with his uncle who is the local C. N. R. agent.

Mrs. A. Holmwood and Mrs. J. E. Brooks were in Prince Rupert during the week.

Kenneth Kerr returned from Prince Rupert on Monday after a short holiday in the city.

Mrs. Ardagh was an afternoon tea hostess on Wednesday in honor of Mrs. D. D. Munro who left the following day for Vancouver. Mrs. McKenna won the prize while the guest of honor on the consolation. The hostess was assisted by Mrs. Duncan.

E. M. Smith returned this week after a trip to Prince Rupert.

A. Y. Wilson of Reno, Minnesota, took a trip last Thursday when he left against a squall at the crossing.

Some time ago, Mr. Clark is grateful to the people who assisted him in the past.

## QUICK NEWS

Geo. Coffey was seized with heart attacks last week and is now a patient in the Telkwa nursing home.

An enjoyable evening was spent by the pupils and parents at the Halloween party given by the teacher, Miss Scott.

Those who were turned in on C.J.O.A. Edmonton, Thursday evening listened to an address by Hon. McKenzie King. The reception in these parts was very good although the weather was bad. It is some time since Edmonton station came in so well.

Last week saw the completion of threshing in this district. For years stock threshing has been general, but we have gambled and got away with it in most cases. It is playing one's luck to hard to leave grain standing out until Nov. 1. It is not many years since we saw grain stocks peaking up through the snow all winter.

Although only one rain was received through the growing season, and the summer was cold and cloudy, the farmers have feed for their stock. In most cases the farmers threshed from three quarters to a fair crop, but few really good yields were reported. The wheat and root crops seem to have suffered worse than oats and barley. A good acreage of fall plowing has already been done, although there is no moisture in the land.

In spite of a none too good an outlook there is some new clearing being done this fall in hopes that there will be a good fall of snow to put the land in shape for seeding. If the winter closes in with no moisture it is not promising for next year's hay crop.

A car of spuds was shipped out of Quick last week, but from reports the price was very low in view of the short crops.

The C. N. R. has made the promised improvements at the loading platform and loading is a lot easier.

Times have changed. There were four threshing machines in the district this fall.

The Conservative Association met at Round Lake hall. There was considerable talk about roads.

Thos. Brandon is doing a lot of fall plowing on the Wing ranch for Ed Hawkins who recently purchased the place.

Mrs. Graham of Prince Rupert arrived early in the week and will spend the winter in town with her son George.

E. J. Kenney is extending his store into the rooms recently vacated by C. R. Gilbert. This will give the hardware merchant more room to display his stock as well as providing an office and other needed conveniences.

An accident occurred on Tuesday when Mr. Roberts' car was caught in a cable on a city pole on Togo's side. The wind whistled and top were damaged.

Mr. Gregory was a dinner host on Monday evening at 6 P. M. at the home of Mr. and Mrs. Joe Cook. Places were laid for fourteen guests. Following the dinner a theatre party was enjoyed.

The Athletics Association held in the Canadian Legion Hall on Friday was not well attended owing to the inclement weather.

Mr. and Mrs. McLeod and daughter Jean were last night visiting the home of Mr. and Mrs. J. E. Brooks.

Some time ago, Mr. Clark is grateful to the people who assisted him in the past.

## Short Stories

Close to Home

Hon. McKenzie King's speech in Vancouver on Friday night will be broadcasted from C. N. R. V. The meeting will start about eight o'clock.

Robt. Tomlinson spent the first few days of the week in Smithers.

Word from Dr. and Mrs. Wrench in the east is to the effect that they are having a very pleasant trip.

Last Tuesday the Kitwanga district was visited by one of the worst wind storms in the history of white man's occupation of that valley. Large numbers of trees were blown down or had the tops blown off.

Mr. and Mrs. Chris Christianson and family are leaving Thursday morning for Kitwanga where they will put in the winter. Mr. Christianson is employed in the woods there.

The Conservatives of Omineca riding held their annual meeting in Vanderhoof last week and are now ready for the fray any time it comes along.

The political parties in Canada are getting lined up. They have adopted the new slogan "Preparedness for Peace." They are getting ready for next battle just the same.

The police station at Hazelton has been well occupied during the past week. A number of others had to be put on the waiting list until the next clearing day.

Dr. Hankinson of Smithers was a visitor to Rupert last week. When he was about to take the train in the early hours a Smithers he tripped over the tongue of a baggage truck that was left down. In the fall he received a nasty bruise on the back of his left hand which required attention as soon as he reached the city.

Word has been received that W. B. Dornberg of the Silver Cup mine has been laid up at his home in Vancouver. His next trip to the property has been postponed pending his recovery.

Mr. and Mrs. Wm. Grant spent the Thanksgiving holiday with their daughter, Mrs. Norman Kilpatrick, in Smithers.

The Armistice Dance in Smithers on Monday night drew one of the largest crowds that ever gathered in the hall. Two pipers were present and assisted the orchestra in providing music.

Douglas Lay resident mining engineer has about completed his field work in the district for this season and in a week he will be leaving for Victoria where he will be busy preparing his report on the season's operations in District No. 2. Mr. Lay states that while there were some disappointments he is satisfied with the progress that mining has made in the district as a whole.

Miss Vivian Chappell is a guest of friends in Prince Rupert.

Miss Anna Johnson left Thursday for Vancouver where she will remain. She has been at her home here for several months.

Geo. Cummins wife and son 32 Wil- laria left Thursday for Vancouver to make their home. The move was necessary for the benefit of Mrs. Cummins health. They have been in the Lakes Country for about nine years and were about to leave it. They sold the farm for three years.

Mrs. Hamilton of Wistaria left for Chetwynd for a short time.

If better milk was produced you would find it in **Borden's St. Charles cans**

Nowhere is better milk obtained than in our own fertile Fraser Valley. Pure, rich and creamy, St. Charles Milk is a

**"Made in BRITISH COLUMBIA"**

product of which we all may be proud.

### WHAT'S UP?

Come to the Hazelton Social Club Dance on Friday November 22 and see and hear what our local talent can do. You will get your money's worth. If not in dancing, then in laughing. Let's have the old hall crowded.

Bill Sweeney left last Thursday for New Zealand where he will visit his father who is not in the best of health. Bill will probably get across the water but it will not be on account of that photograph he has pasted to his passport. He kind of hated to leave the country with that likeness in his pocket. He did not tarry in Prince Rupert for even one day.

Col. and Mrs. Peacock of the Salvation Army, with headquarters in Winnipeg, spent a couple of days with the Army at Glen Vowell and left last Thursday for the south enroute to the prairies. They had attended the native conference in Alaska and also called on the different Army officers in the north.

The general meeting of the British Columbia division of the Canadian Institute of Mining will be held in the hotel Vancouver one week earlier than previously announced. The new dates are Nov. 27, 28 and 29.

Rug—(after narrow escape at a railroad crossing): "Whaffo yo! blow yo! ho?" "At ain't gwine do yo! no good." "Tus, 'Boy, at wint my ho'n." "A was Garbhal."

Mr. Fraser, school inspector, inspected the local school on Thursday morning.

Frank Pipe gave his foot a nasty cut on Friday while cutting wood at his home in the Kispiox.

Mitchell Newman was up from Fairclinton Thanksgiving.

Miss Ruth Walter was home over the week-end.

Mr. and Mrs. Leo Spooner were Smithers visitors the end of the week.

Miss Jessie Smith spent the week-end at her home here.

There was a very successful dance held in the school house at Fairclinton on Saturday night. The school was crowded and everyone had a good time.

Mrs. John De Boreham left for Hazelton on the local school bus Friday. She will be staying at the home in Prince Rupert.
